

JPL

Jet Propulsion Laboratory

Sit back and relax as we journey to NASA'S Jet Propulsion Laboratory near Pasadena. We will get an inside look at current space exploration activities during our approximate 2.5-hour walking tour of the facility. The tour includes a multimedia presentation entitled "Journey to the Planets and Beyond," which will provide an overview of JPL's accomplishments. Since JPL is a working space exploration facility, highlights of the tour are subject to change. Join us for this fascinating look at robotic exploration of our Solar System.

JPL requires that all U.S. citizens, 18 years of age or older, present official, government issued photo identification (driver's license or passport) before being allowed entry. All non-U.S. Citizens, 18 years of age or older, must present a passport or resident visa (green card) before being allowed entry. Individuals without proper identification will NOT be admitted to the Laboratory. Please be advised that the tour involves walking approximately eight tenths of a mile which includes some stairs. Cameras are permitted at the facility.

Limited to the first 40 People

Return time may vary.

**August TBD,
2019**

**Tour limited
to 40**
