## Tour.

You will need to be adventurous, spontaneous and embrace the unknown. We all know the southland is filled with world-famous landmarks and attractions. But if you look closer, there are hidden gems throughout the city waiting to be discovered. This tour could include the latest architecture or highly anticipated renovation projects, we might explore old neighborhoods or discover the latest happenings, we could visit independent museums or landmark restaurants.

The possibilities are endless as could be going anywhere in the city.
